# A RAY OF SUNLIGHT

## PRODUCT SPECIFICATION

### Sunbeams

Ray is a sunny pendant lamp made from thinly cut steel. The laser-cut shadow lines are bent into various shapes and sizes. Each different model will diffuse a different light pattern. The more closely the lines are clustered, the more the light will be focused on a central point. The closer the lines are together, the more the light will spread. Ray is available in 3 different sizes and in various colours.

### Materials

High-gloss painted steel

### Weight

0.8 kg

### Specifications

The power cord is always in the same colour as the lampshade. A semi-transparent cover for the ceiling is included. A LED light bulb is included.

### Designer

Claesson Koivitsu Rune
